**Supply and Disposition, 1998**

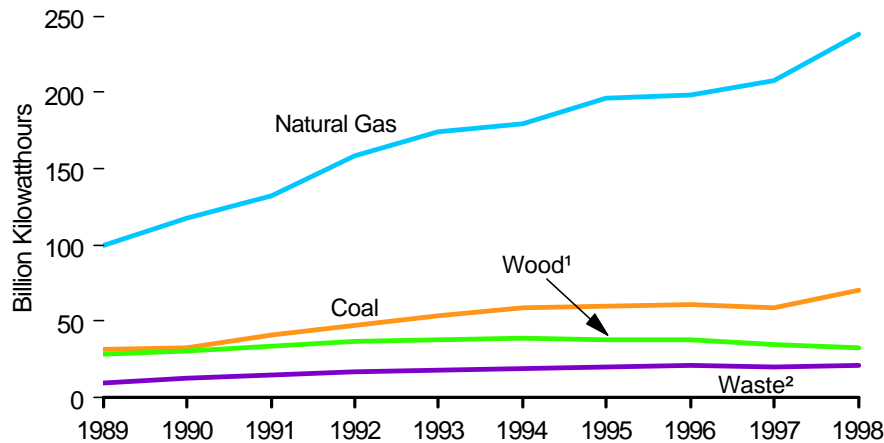

**Gross Generation, 1989-1998**

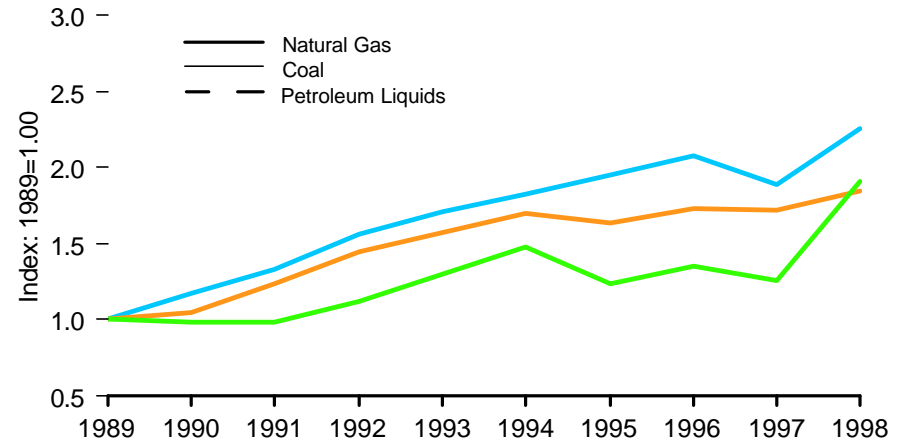

**Installed Capacity, 1989-1998**

**Gross Generation by Selected Fuel Type, 1989-1998**

**Fossil Fuel Consumption by Selected Fuel Type, Indexed, 1989-1998**

<sup>1</sup> See Table 8.14, footnote 14.

<sup>2</sup> See Table 8.14, footnotes 15, 16, and 17.

Notes: • Nonutility electric generating facilities with a total generator capacity of 1 megawatt or greater. See Table 8.14 for a description of fuels. • Due to restructuring

of the electric power sector, the sale of generation assets is resulting in reclassification of plants from electric utility to nonutility plants. • Because vertical scales differ, graphs should not be compared.
